01

## LEADING FROSTED FILM SUPPLIER IN MALAYSIA

As the primary source of frosted film materials in Malaysia, all our products come directly from our warehouse. This distinct advantage eliminates the need for intermediaries or third-party vendors, allowing us to provide cost-effective solutions to our customers.

02

## EXPERTISE AND EXPERIENCE IN FROSTED CUSTOMIZATION

From the initial site visit to artwork design, precise cutting, and seamless installation, our team excels in every aspect of the process. We maintain open communication with our clients at every step, ensuring that our work aligns perfectly with your unique needs and vision.

03

## QUALITY SERVICES AT REASONABLE RATES

Since we source and supply directly, we cut out unnecessary mark-ups, ensuring that you receive the highest quality frosted film at a competitive price point. We believe that affordability and quality should go hand in hand, and our dedication to fair pricing reflects our commitment to offering you exceptional value.

04

## CUSTOMER-CENTRIC APPROACH

Our commitment to customer satisfaction is unwavering. We prioritize your needs, offering tailored solutions that match your specific requirements. Your vision is our inspiration, and we take pride in going the extra mile to ensure your complete satisfaction.

05

## ONE-STOP SHOP FOR SUPPLY & INSTALLATION

At Sun Barrier, we offer a hassle-free experience by providing a comprehensive range of services. Not only do we supply the finest frosted films, but we also take care of the installation process. This means you can rely on us for the entire journey, from product selection to the flawless application.

A close-up photograph of a person's hand holding a piece of translucent, frosted film. The film is being held at an angle, showing its texture and how it diffuses light. The background is a plain, light blue surface.

# FROSTED INTRODUCTION

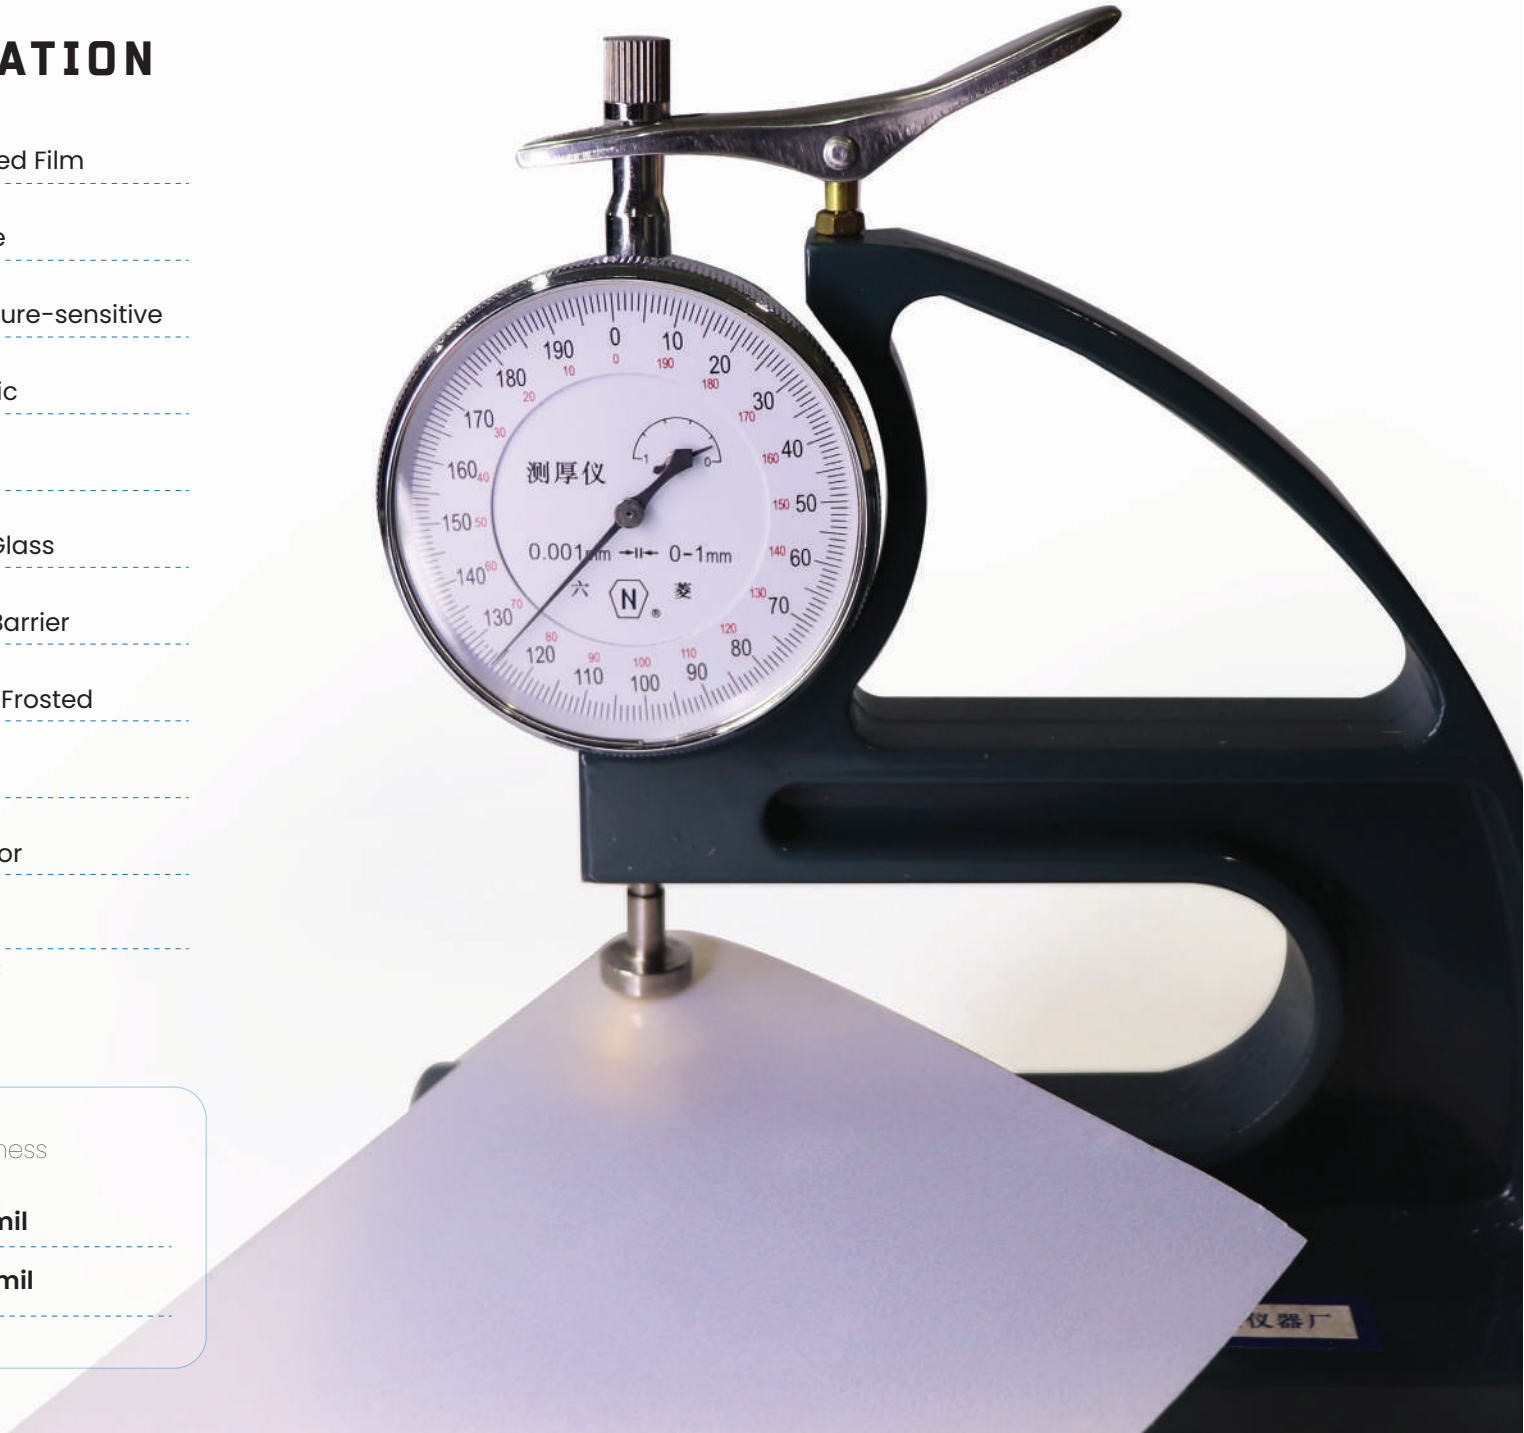

FROSTED FILM is often called '**sandpaper.**' It's commonly used to add privacy and decorative flair to rooms. Even if your design is simple, Sun Barrier can make your glass-filled office look more interesting and lively.

# FROSTED DISTANCE EFFECT

The visual impact of frosted film may vary depending on factors such as the distance between the film and the object, as well as the light source illuminating the object or the person situated behind the film.

Additionally, the clarity of shadows is influenced by both the thickness of the frosted film and its color.

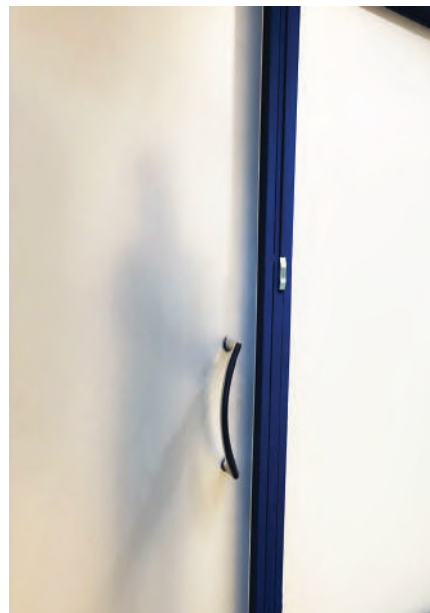

## RESISTANCE TO SHATTERING

## FULLY CUSTOMIZABLE

## MAINTAIN PRIVACY

## STYLISH

## AESTHETIC LOOKS

## ADDITIONAL SECURITY

# FROSTED ADVANTAGES

### RESISTANCE TO SHATTERING

Frosted film provides an extra layer of security. In the unfortunate event of glass breakage, the frosted adhesive holds shattered glass in place, reducing the risk of injury and damage.

### FULLY CUSTOMIZABLE

Experience the freedom of customization. Frosted film can be precisely cut into intricate shapes and designs, allowing you to bring your unique vision to life with precision and detail.

### MAINTAIN PRIVACY WHILE EMBRACING SUNLIGHT

Enjoy the best of both worlds. Frosted film offers privacy for spaces like bathrooms, offices, or rooms while still allowing the warmth and beauty of natural light to flood in.

### STYLISH REPLACEMENT FOR TRADITIONAL WINDOW COVERINGS

Elevate your interior space. Frosted film creates a sense of spaciousness and replaces traditional window coverings with a modern, stylish, and uncluttered look.

### AESTHETIC LOOKS

Enhance the ambiance of any setting. Frosted film adds an aesthetic touch to both residential and commercial spaces, creating an atmosphere of elegance and sophistication.

### ADDITIONAL SECURITY

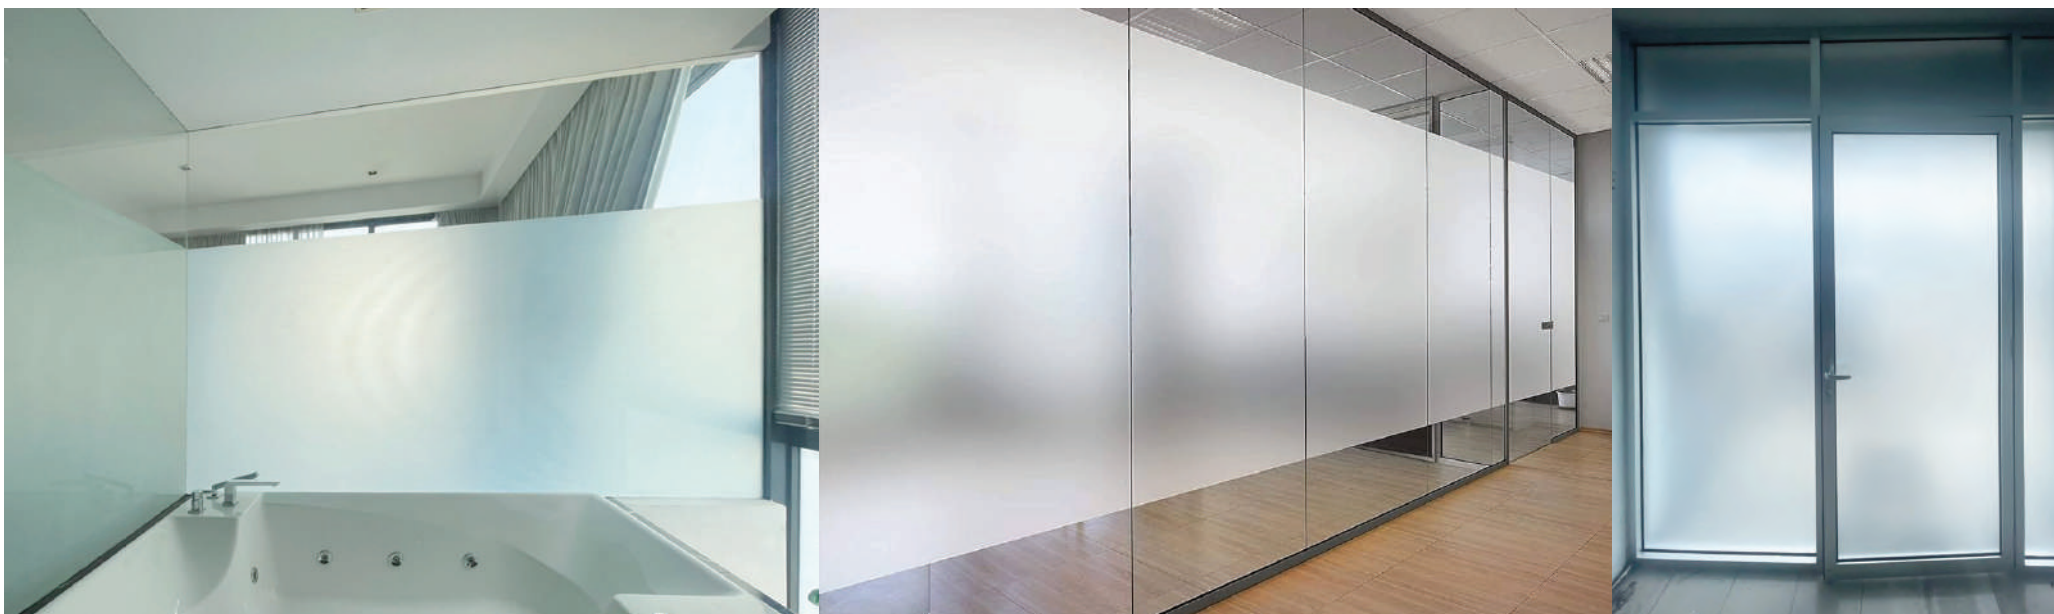

Prioritize safety and security. Frosted film not only reduces the risk of shattered glass but also acts as a deterrent against robbery attempts, providing added protection for your space.

## PLAIN FROSTED

For enhanced privacy, some clients opt for full frosted windows, allowing them to enjoy natural light while maintaining a private atmosphere.

# FROSTED CUSTOMIZATION

Our computer cutting services offer an extensive array of options beyond plain frosted materials, including;

**PRECISION  
STRAIGHT LINES**

**CUSTOM  
PATTERNS**

**TEXT AND  
WORDINGS**

**ARTISTIC  
CUSTOMIZATION**

**LOGOS**

# What is computer cutting?

Computer cutting involves crafting intricate designs using vector images and a plotter cutting machine to achieve precise, controlled cutting across diverse materials.

## FROSTED COMPUTER CUTTING

At Sun Barrier, we specialize in Frosted Computer Cutting, commonly referred to as frosted glass decal or frosted customization. We utilize frosted materials to showcase custom designs precisely cut using a plotter cutting machine.

We also offer a variety of colored stickers for computer-cut designs.

**The precise cut line between the liner and frosted material makes it easy for our installers to both apply and tear off the line from the glass.**

We prioritize the impact of precision on your projects, dedicated to delivering meticulously crafted, customized items using innovative technology for your unique designs.

**FROSTED COMPUTER-CUTTING**

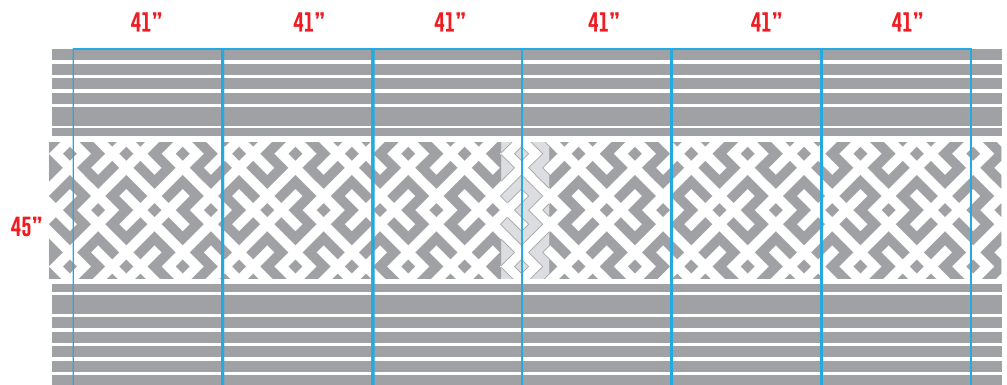

# ARTWORK VS INSTALLATION

Presented here is a sample of our computer cutting process, showcasing both the initial artwork drawing and the post-installation image. You have the option to choose from our existing designs, request a customized design from us, or even provide your own design for a personalized touch.

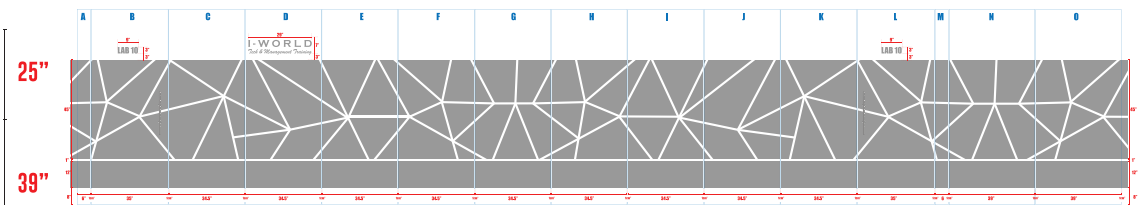

## FROSTED COMPUTER CUTTING

Product Code

**FROSTED 216**

**FROSTED 216** is the most popular choice among clients for computer cutting designs. It effectively accentuates the intricate cutting design, while allowing light to pass through and creating a distinctive and appealing look.

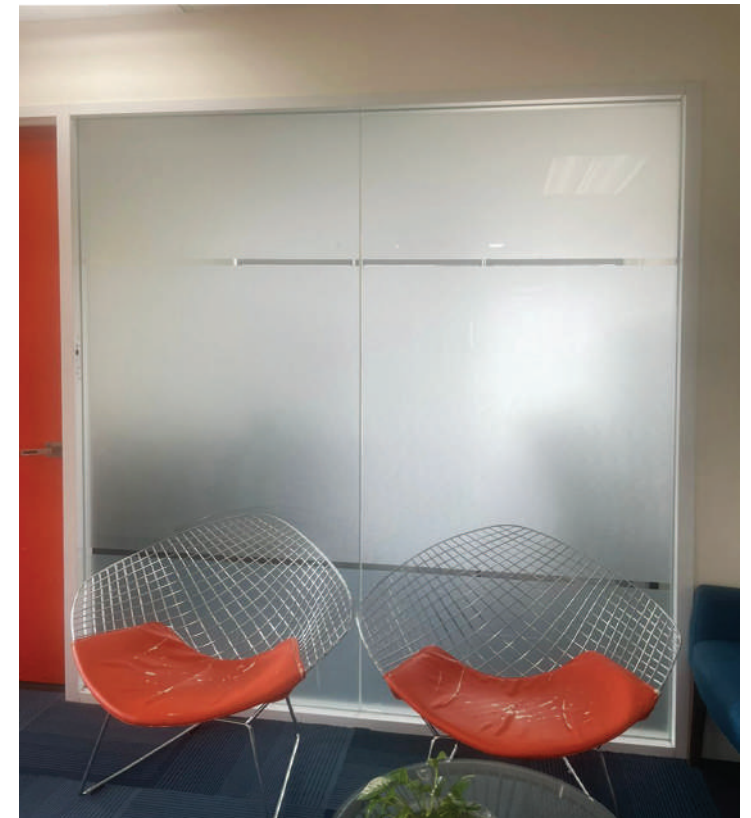

## FROSTED COMPUTER CUTTING

Product Code

**FROSTED 215**

After installation, **Frosted 215** provides a captivating translucent effect, allowing for the subtle play of shadows through its frosted surface while ensuring a comfortable viewing experience. However, the shadow clarity depends on the lighting conditions and the quality of the light source.

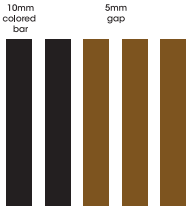

COLORED FROSTED COMPUTER CUTTING

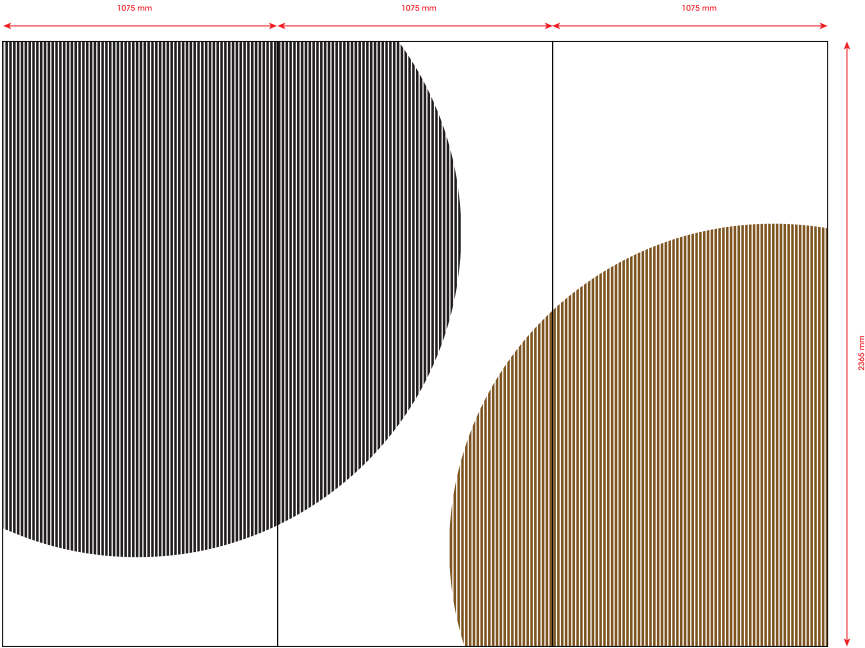

Product Code

FROSTED 223 GREY

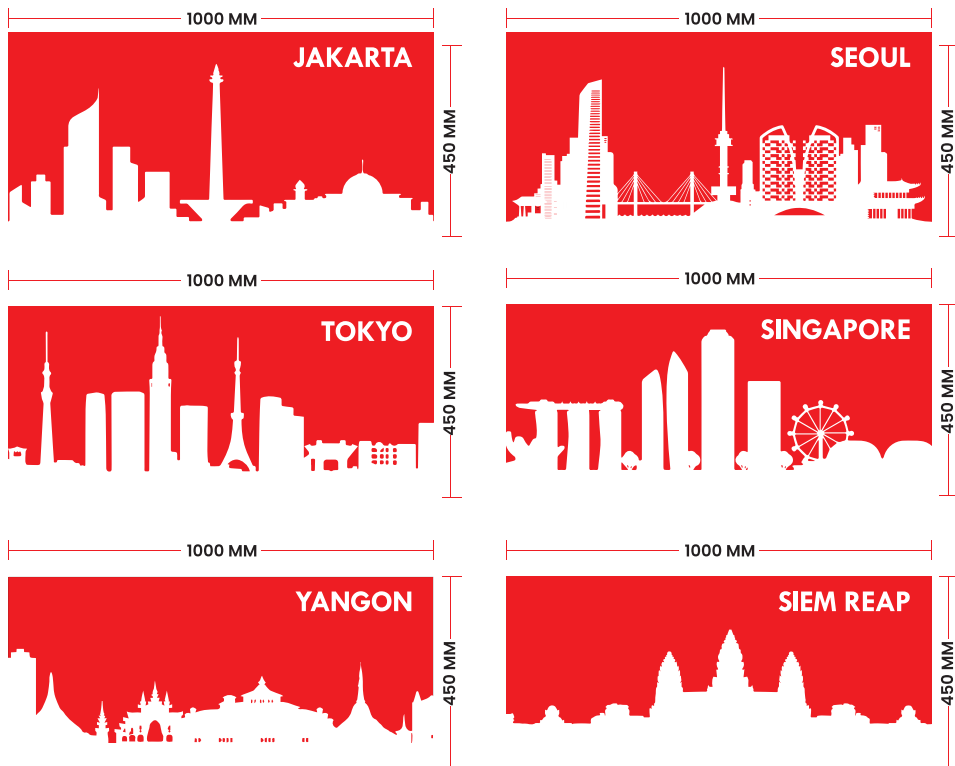

FROSTED 219 BROWN

By intricately cutting these two frosted colors into small lines, we achieve the creation of captivating 3D images, producing a mesmerizing illusion effect after installation. The interplay of the two colors from a distance imparts a nuanced tonal appearance.

## STICKER COMPUTER CUTTING

Product Code

**BLACKOUT WHITE STICKER**

**BLACKOUT RED STICKER**

The combination of red and white stickers enhances the contrast of the building edges. Our team strategically installs the red sticker on the interior of the glass and the white sticker on the exterior. This arrangement allows the reflection from the red background to illuminate the white sticker, creating a visually striking effect.

## STICKER COMPUTER CUTTING

Product Code

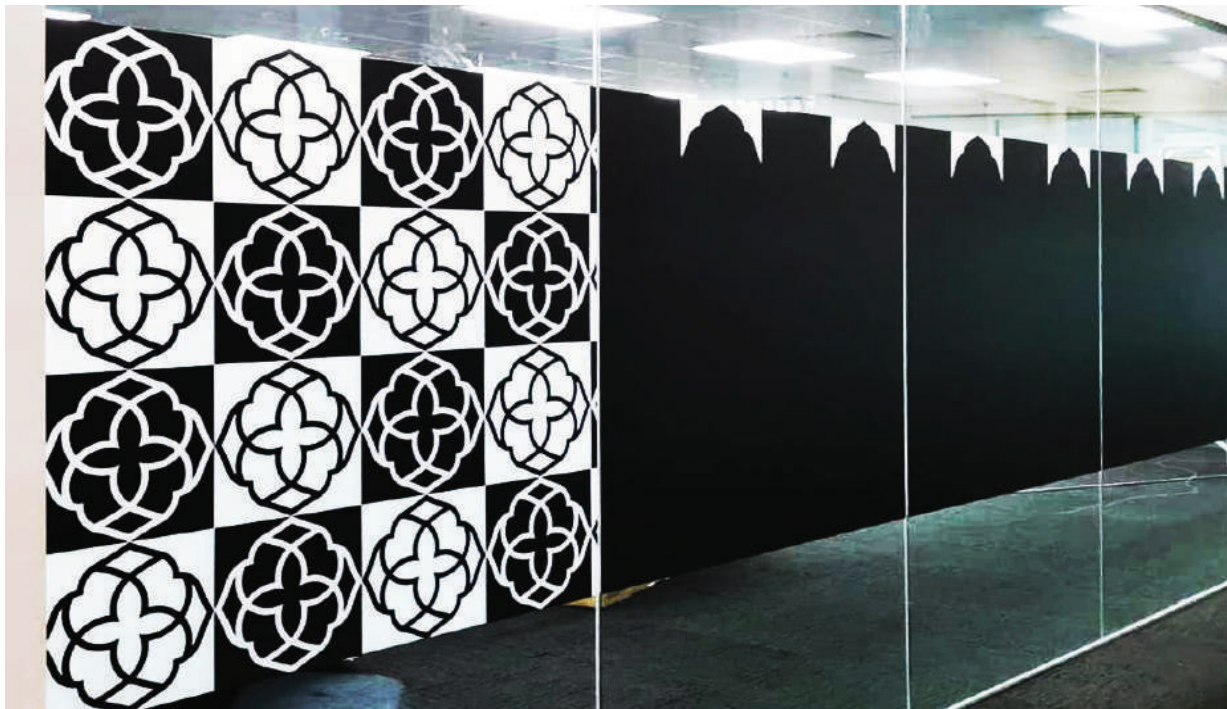

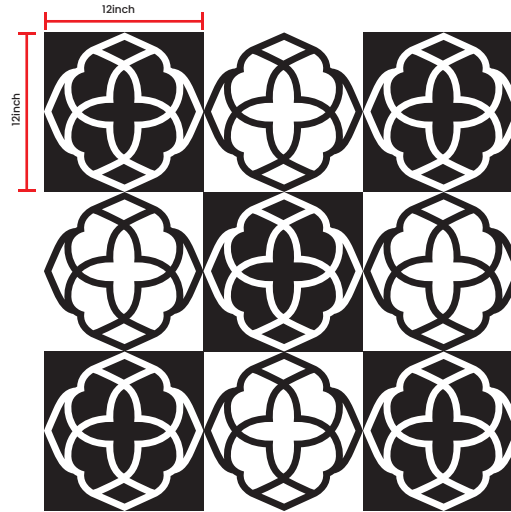

**BLACKOUT BLACK STICKER**

**BLACKOUT WHITE STICKER**

Experience a perfect blend of privacy and elegance simultaneously.

The black and white mandala sticker cutting design adds an aesthetic touch to the wall. Our team installs a single-piece white sticker on the inside, and then meticulously applies the pre-cut black sticker to the exterior of the glass.

As the black sticker is peeled off, the elegant mandala shape is revealed, creating a visually captivating effect.

FROSTED COMPUTER-CUTTING

# WORK FLOW & ESTIMATION PROGRESS

## 01

### ARTWORK

After receiving a 50% deposit, we will begin the artwork process, which typically takes 2-3 working days.

## 02

### COMPUTER CUTTING

Once the artwork is confirmed, we will schedule the computer-cutting process. The time required for computer cutting may vary depending on the design and quantity, usually taking 2-5 working days.

## 03

### INSTALLATION DATE

The installation date depends on the agreement with the customer and our slot availability. Additionally, it needs to be scheduled after the artwork and computer-cutting processes are completed.

## INSTALLATION DURATION

*For simple designs, it usually takes 1 to 2 days to install. More complex designs may require 2 to 5 days, depending on factors such as the site conditions, glass dimensions, and quantity.*
